

ReNature renature-project.eu

Nature-based Solutions are defined by IUCN as “actions to protect, sustainably manage, and restore natural or modified ecosystems, that address societal challenges effectively and adaptively, simultaneously providing human well-being and biodiversity benefits” (IUCN, 2019).

EU Horizon 2020 Coordination and Support Action

ReNature  renature-project.eu

ReNature promotes research excellence in nature-based solutions for innovation, sustainable economic growth and human well-being in Malta.

This project is collecting information about nature-based solutions in Malta. If you know of any of the following nature-based solutions please inform us using the contact email below.

- Green walls;
- Green roofs;
- Trees planted to (absorb rainfall, attract biodiversity, mitigate wind and or noise pollution);
- Natural features that enhance health or well-being;
- Any natural features that restore, sustain or protect the environment.
